

Parent Homework

No one knows your son or daughter as well as you do and I want to capitalize on that information.

Your assignment has NO deadline. I simply ask that, at your convenience, you write or email me with information that will help me to know your child better.

Please include information about your child's:

1. Academics: favorite school subject(s), strengths (and/or weaknesses), areas of sensitivity, how does your child feel about coming to school
2. Behavior: positive ways that you work with/interact with your child, behavior triggers, stressors
3. Interests: inside OR outside of school, special experiences within the past year or so (ex: getting a puppy, a favorite vacation, a special award)
4. Health: important health/family information that I should be made aware of (ex: allergies, siblings, etc.)
5. Uniqueness: tell me something interesting about your child, anything else that you deem helpful

I appreciate that this request will take some thought, but having this information will assist me in becoming a better teacher for your child.

Thanks in advance for your assistance in making this year so very memorable for your child!

~Ms. Milligan
